

Git Workflow Cheat Sheet

Attached to the "Git Branching and Pull Request Workflow" engineering standard in the Engineering Handbook section, owned by Developer Platform.

One-page reference for the branching and PR rules.

- Trunk-based: branch from main, merge back fast
- Branch name: type/NW-1234-short-description
- 1 approval normally, 2 for auth or billing changes
- Squash-merge only; CI must be green
- Branches idle 30 days are auto-deleted
